

OEMC · ONE FOIA PROCESSING FILE · JULY 17-29, 2026

DATED JULY 29, 2026

## Targeted FOIA — OEMC Search and Processing Records

### Freedom of Information Officer

Office of Emergency Management and Communications

City of Chicago

OEMCFOIA@cityofchicago.org

#### MATTER

#### F267482-071726 — processing file and PMIS query documentation

A new processing-record request; it does not re-request the June 6 incident records

### OEMC Freedom of Information Officer:

Pursuant to the Illinois Freedom of Information Act, 5 ILCS 140/1 et seq., I request the specific existing records described below concerning OEMC's processing of FOIA F267482-071726. This is a new noncommercial request for the processing and search record. It does not re-request the June 6 incident records and does not amend or restart F267482-071726.

The relevant period is July 17 through July 29, 2026.

### RECORDS REQUESTED

#### CATEGORY 1 — INTAKE, ROUTING, ASSIGNMENT, AND ACTIVITY HISTORY

The existing GovQA or Public Records Center activity history, routing history, assignment history, status history, internal notes, task records, and transmittal records for F267482-071726, including the date and time of each material action and the assigned office or custodian.

#### CATEGORY 2 — SEARCH INSTRUCTIONS AND CUSTODIAN RESPONSES

Existing search instructions, custodian assignment or search forms, custodian responses, search certifications, emails, memoranda, tickets, or other records documenting which OEMC offices, personnel, systems, repositories, and record categories were searched for F267482-071726 and the search terms, date ranges, address forms, identifiers, and other parameters used.

#### CATEGORY 3 — PMIS OECEC602 REPORT DOCUMENTATION AND EXECUTION METADATA

Existing records sufficient to identify the purpose and data sources of the "Police MIS.Oecec602 Report" supplied as file 277960.xls; the meaning of "Service Location" and "Address of Occurrence" in that report; the report's available search fields; and the query-execution or report-generation metadata for the supplied report, including execution date and time, operator or account, parameters, system or database, and returned row count.

This category includes an existing data dictionary, report definition, user guide, field description, system documentation, query audit, execution log, or report-generation record. It does not ask OEMC to create a new explanation.

#### CATEGORY 4 — CATEGORY-BY-CATEGORY DISPOSITION AND REFERRAL RECORDS

Existing internal records documenting the search, disposition, referral, or decision for each of the original request's five categories: CAD/event records; 911/311 records; radio/dispatch/telephone/console records; responding-agency and interagency-identification records; and retention/preservation/audit/system records.

This includes an existing record identifying that a category was assigned to another custodian, not searched, outside OEMC's custody, unavailable because of retention, or included within the single PMIS address search. It does not ask OEMC to create a new categorical explanation if none exists.

## SCOPE AND LIMITATIONS

---

This request is limited to the processing file, search documentation, and existing report documentation for one identified FOIA matter during a thirteen-day period. It does not request the incident records again, all OEMC FOIA files, or unrelated communications.

## PRODUCTION AND EXEMPTIONS

---

Please produce responsive records electronically in native format where feasible, including spreadsheet, audit, or activity-history formats with useful metadata preserved. This request is noncommercial.

If a record contains exempt and nonexempt information, redact only the exempt portion and produce the reasonably segregable remainder. For each withholding or redaction, please provide the written determination required by 5 ILCS 140/9 identifying the record or category, specific exemption, factual basis, responsible person's name and title, and review rights.

Please associate the response with F267482-071726 for reference while assigning this new request its own tracking number. Electronic production to defcon5ready@gmail.com is requested.

---

Respectfully and without waiver of any right or remedy,

/s/ Ehab Allababidi
